COOL WEATHER .- For several days past the breath of fall has been upon us-cool, refreshing and delightful.-We have felt like we had been reconstructed; not by the delectable laws of the "Rump;" but by the genial and invigorating airs which have been stealing upon us from the glowing west, and the golden fruits of the summer harvest, gathered by eager hands from field and orchard. The nights, too, have been cool, but not unseasonable, for fall is almost upon us a few more weeks and Jack Frost will appear in purest mautle, glistening with chrystal spears, and drive us all to social pleasures around the gladsome hearthstone. We, for one, will welcome him.

IMPROVEMENTS .- We are glad to see that some of our enterprising citizens are neither discouraged by high taxes nor the "signs of the times," in exercising in a practical way the spirit of improvement. The large buildings now in course of erection by Messrs. Wall & Harrison are going ahead finely. The house being built for Major Hick Johnson as a private residence, we understand, will be completed this fall; and the brick work of Mr. Weill's new store house, on Strawberry Alley, will be finished the present week. There are, also, other improvements, less important

THE BAILEY TROUPS.-This old and justly popular company gave two entertainments in this city during the past week, performing to good houses and giving general satisfaction. Mr. George Bailey, the same old "Cousin Joe," appeared in some of his favorite residence, on one of his vacant lots, roles, and was well received and loudly on the Charlotte pike. FREE SCHOOLS .- A meeting of the people of the 12th Civil District is called to meet at the Court-house in this place, next Monday night. It is carnestly requested that every body favorable to free schools should be present as business of importance will be presented to the meeting.

A DIRTY TRICK. -On Friday night last, while the Bailey Troupe was performing, some contemptible scoundrel introduced a preparation under the canvas the odor from which was so siekening as to drive a large portion of the audience out. The perpetrator of this dirty trick deserves to be ferreted out and held up to public seorn and contempt. Had the crowd been composed of rowdies, assembled for an unlawful purpose, there might have been some excuse for the act; but, on the contrary, the audience embraced a large number of the most respectable ladies and gentleman of the city, and the act can find no justifleation in the plea that it might have been done to disturb the few negroes who were present. We hope that the fair name of our city will never again be sulfied by so grees an outrage upon PUNERAL NOTICE.
